BULLETIN No 2

## Basic instructions

---

### Format

The World Rogaining Championships will be held as a 24 hour rogaining event in accordance with the Rules of Rogaining published on the IRF website:

<http://rogaining.com/resources/irfrules062010.pdf>

### Rules

The Rules of Rogaining of the International Rogaining Federation are followed, with the exception of rules **B1**, **B15**, **B16**, **B17**, **B20**, **B29(b)** and **C16**. The rules listed above are respectively replaced by the following provisions:

**B1<sub>1</sub>**: A team shall consist of two or three members.

**B15<sub>1</sub>**: All team members shall carry the SI card during the whole competition from start to finish. It will be attached by organisers with a non-removable wristband.

**B16<sub>1(b)</sub>**: In order to gain points for a checkpoint, all members of a team shall punch their SI cards at the SI station of that checkpoint within a time interval of 60 seconds.

**B17<sub>1</sub>**: In the event of the electronic recording device (SI card) being lost or wristband being broken, the team shall report to the event officials and return to the event office. Failure to do so shall result in disqualification of the team. The organisers shall provide a replacement electronic recording device or wristband and the team shall be admitted to continue the competition. Points shall be credited only for checkpoints visited after the replacement.

**B20<sub>1</sub>**: Whenever entering the hash house area during the competition, all team members shall punch the SI station labelled "check-in". Upon leaving the hash house area, all team members shall punch the SI station labelled "check-out".

**B29<sub>1(b)</sub>**: The SI station at each checkpoint will give light and sound feedback, indicating that the visit was recorded. In case of failure of the SI station (there is no light/sound signal), all team members shall use the manual punch at the checkpoint, punching one of the R squares at the margin of the competition map.

In case both the SI station and the manual punch being broken or missing at the checkpoint, teams shall be awarded the checkpoint score if they bring a piece of paper with the printed code of the checkpoint, which can be picked up from/found at the location of the checkpoint.

**C16<sub>1</sub>**: A team's score is determined on the basis of the reading of SI cards of all team members. Manual punches are taken into account only when it is established/agreed that there has been a failure of the SI station at a given checkpoint.

Printed codes of checkpoints are taken into account only when it is established/agreed that both the SI station and the manual punch were broken or missing.

Further exceptions from the IRF Rules of Rogaining may be specified in **Bulletin No 3**.
